

I see.

Trustmark brings you EyeMed Vision Care

Trustmark and EyeMed Vision Care bring you a great choice for vision wellness. EyeMed's comprehensive vision plans are ideal for employers of all sizes.* EyeMed's vision care programs offer flexibility, convenience and ease of use for you and your covered employees – all while saving employees money on their vision care and eyewear purchases.

Why Vision Wellness?

There's clearly a need to offer eye care in the workplace. Comprehensive eye exams do more than manage patients' vision needs – they contribute to overall health as the first line of defense against illnesses such as diabetes, hypertension and heart disease. Annual eye exams play a vital role in ensuring a healthy life, positively affecting employees, workplaces and future health care costs.

Why EyeMed?

Trustmark brings you EyeMed so you can help members have improved eyesight and health. EyeMed delivers dedicated service to employers and a variety of educational information. EyeMed's Web site allows benefits staff to manage enrollment and perform other automated functions. And EyeMed's Customer Care Center is open seven days a week, including evening hours. Members also save on eyewear purchases throughout the year at thousands of private practice and retail optical providers across the country.

EyeMed makes it easy and affordable for companies to offer vision benefits.

*Minimum of 10 employees required
