The individual medical plan out-of-pocket limit is the amount of covered charges the member must pay each year before benefits will be paid at 100 percent. The family out-of-pocket limit is two times the individual out-of-pocket limit. Note: For members with family coverage, benefits are paid at 100 percent once the entire family out-of-pocket limit is met. The out-of-pocket limit includes the plan deductible and coinsurance, but does not include precertification penalties.

| Deductible Type Choose one. | ■ Aggregate: Benefits are payable once the entire family deductible is met. |
|--------------------------------|--|
| | ■ Embedded: Benefits are payable for a member once either the individual deductible is met, or for the entire family once the family deductible is met. |

In order for the self-funded plan design to be qualified for use with an HSA, the embedded deductible must be selected only with individual deductibles of \$2,500 (\$5,000 for families) or higher.

| | |
|--------------------------|--|
| Lifetime Maximum Benefit | Unlimited for essential health benefits (as defined by federal regulation) |
|--------------------------|--|

The deductibles and out-of-pocket limits are based on the Consumer Price Index (CPI). Federal law requires an annual cost-of-living adjustment based on changes in the CPI; therefore, these plan designs may be adjusted annually.

¹In- and out-of-network deductibles and in- and out-of-network out-of-pocket limits accrue separately. The in-network deductible must be less than or equal to the in-network out-of-pocket limit.

- Coverage includes medical charges resulting from accidental injury incurred within 90 days of the accident.

Outpatient Prescription Drug Benefit

Price Assurance Program

This program provides prescription drug savings at participating pharmacies nationwide. Covered prescription drugs are subject to the in-network plan deductible and coinsurance when the prescription is filled at a participating pharmacy.

When members present their medical ID card at a participating pharmacy, they receive:

- The lowest price available in that store, on that day
- Generic drug savings
- Drug utilization review

The Price Assurance Program includes most drugs that, by federal law, require a prescription. If a prescription drug is excluded from coverage under your self-funded plan design, members may still receive a discount on their prescription through this program.

Prescription Safeguards

To encourage the safe and appropriate use of prescription drugs, Starmark® plan designs utilize quantity limits and prior authorization for certain drug classes covered by the prescription benefit. These limits and prior authorizations are intended to ensure proper prescription utilization and clinically appropriate quantities.

Additionally, Specialty Guideline Management, provided by Starmark's contracted pharmacy benefit manager, helps to ensure members receive the most appropriate specialty medication for managing their complex medical conditions. Refer to the separate brochure, *Safety, Savings and Convenience*, for more information.

To learn more about the prescription drug benefit, specialty pharmacy services and ways to save on prescriptions, refer to the separate brochure, *Making the Most of Your Prescription Benefit*.

Visit a Participating Pharmacy to Maximize Benefits

Participating pharmacies have contracted with Starmark's contracted pharmacy benefit manager to charge a fixed amount for prescription drugs. Nonparticipating pharmacies may charge a price significantly above this amount, which may mean higher prescription expenses for members. When a nonparticipating pharmacy is used, the member pays the full price of the prescription drug at the time of purchase.

Discount Program Means Big Savings

This program helps members save money and maintain their overall health, and offers discounts on:

- Vision services and supplies
- Hearing services and supplies
- Vitamins

Note: This program from New Benefits, Ltd., a discount medical plan organization, is not insurance and is not available to Vermont residents. Trustmark and Starmark® are not affiliated with New Benefits, Ltd.

Lab Card® Select Program

This voluntary discount program offers outpatient laboratory testing at significant savings compared with other labs when testing is directed to a participating Quest Diagnostics laboratory as part of the Lab Card Select Program. For more information, visit www.labcardselect.com.

Note: The Lab Card Select Program is not available when the Cigna PPO Network or the SuperMed® Network is selected. Quest Diagnostics Incorporated is a provider of laboratory testing, information and services, and is not affiliated with Trustmark or Starmark.

Physician/Hospital PPO Network Selection

Offering employees a choice of PPO networks encourages in-network utilization while maintaining freedom of choice in provider care.

- You may select two networks per business location up to a maximum of five networks.
- By using in-network providers, your employees can take advantage of negotiated discounts. If an out-of-network provider is used, the member is responsible for any amount exceeding the Reasonable and Customary Fee².

Note: Some networks have guidelines that may limit availability with other networks.

Receive Network Access While Outside the Primary PPO Service Area

When members and their eligible dependents encounter an unexpected illness or need medical treatment while outside their primary PPO network's coverage area, they can take advantage of in-network benefit levels, subject to the terms of your plan, and PHCS-negotiated discounts by using PHCS Healthy Directions. Members can visit a PHCS Healthy Directions provider when:

- Traveling for business or vacation
- Attending an out-of-area educational institution
- Residing outside their primary PPO network's coverage area

Members who have the Aetna Signature Administrators® (ASA) PPO Network, Cigna PPO Network or Private Healthcare Systems (PHCS) as their network maintain provider access through these networks when outside the primary PPO service area.

For more information about PHCS Healthy Directions, refer to the separate flyer (MK60b).

¹ Preventive care benefits are in accordance with guidelines from the U.S. Preventive Services Task Force, Health Resources and Services Administration, and the Advisory Committee on Immunization Practices of the Centers for Disease Control and Prevention.

² Reasonable and Customary Fee is the lesser of the provider's actual charge, or a percentage of the Medicare reimbursement rate in effect at the time services are provided.

Precertification

Precertification is required for all hospital, rehabilitation or skilled nursing admissions, behavioral health residential treatment, hospice, home healthcare or transplant-related services, and high-tech outpatient radiology services, including CT, MRI and PET scans.

- To precertify, the member must call the toll-free number listed on the medical identification card.
- Failure to precertify will result in a \$300 penalty per occurrence. This penalty will not count toward the plan deductible, or toward the out-of-pocket limit.
- Precertification does not guarantee self-funded plan benefits are payable. The person must be eligible at the time of service.

Emergency Admissions

In the case of an emergency admission, the member must call the toll-free number listed on the medical identification card within 48 hours after the admission or on the next regular business day after the start of treatment, if later.

Failure to call will result in a \$300 penalty per occurrence. This penalty will not count toward the plan deductible, or toward the out-of-pocket limit.

Pre-existing Conditions

In accordance with the Affordable Care Act, self-funded plans with an effective date on or after January 1, 2014, are prohibited from excluding or limiting pre-existing conditions from coverage. This means that self-funded plans must cover eligible expenses for pre-existing conditions beginning with the effective date of the self-funded plan.

Deductible Credit for New Groups

A member continuously covered under a prior individual or group health plan with a calendar-year deductible will be credited for any portion of the deductible satisfied under the prior plan during the same calendar year. Deductible credit will not be given if moving to or from a health plan with a plan-year deductible.

Credit is not provided for out-of-pocket amounts or for employees added to a self-funded plan after the group's initial effective date.

Enrollment

Annual Open Enrollment Period

Eligible employees may enroll themselves and their eligible dependents during the annual open enrollment period, which is the month prior to the start of the new plan year.

Waiting Period

The waiting period is the amount of time the employee must wait before he or she is eligible for coverage under your self-funded plan. The waiting period cannot exceed 90 days.

Timely Enrollees

Timely enrollees are eligible employees who *complete and sign* an Employee Eligibility Statement for themselves and/or their dependents during the employer's waiting period and prior to the end of the initial enrollment period. The initial enrollment period is the 31 days following the waiting period.

Special Enrollees

Special enrollees are employees or dependents who previously waived self-funded coverage, but may now be eligible because they have *involuntarily* lost their other coverage, had a benefit/coverage change or had a life-changing event. The enrollment period for a special enrollee is the 31 days following the special enrollment event (60 days for special enrollees who have lost their Medicaid or State Children's Health Insurance Program coverage).

Special guidelines apply for special enrollees. For more details, refer to the *Important Notice* (UW105 SF) or ask your broker.

Limited Occupational/ 24-Hour Coverage

Work-related injuries and illnesses are covered under your self-funded plan design when the member is not covered by workers' compensation or similar coverage and is not eligible for such coverage.

Pair Your Plan with an HSA

Freedom of Choice

By selecting a Healthy Incentives CDHP design, you can:

- Save on health plan costs by choosing the cost-savings feature of a high-deductible self-funded health plan design compared to a traditional self-funded health plan design.
- Design a self-funded plan with options that help attract and retain valued employees.
- Use the self-funded plan on a stand-alone basis or pair it with a health savings account (HSA).
- Establish an HSA through a Starmark®-recommended HSA custodian, or through any other administrator or financial institution that offers HSAs.

Ask your broker to help determine the self-funded plan design that best suits your business needs and budget.

What Is an HSA?

An HSA is a personal bank account owned by an individual with a high-deductible health plan and used to pay for qualified medical expenses not reimbursed under the health plan.

Why an HSA?

Tax Advantages

Contributions to an HSA can be made by anyone and are either made pretax or are tax deductible. Any balances in the account are not taxed when used to pay for qualified medical expenses. Additionally, interest on the HSA grows tax deferred.

Note: Tax advantages vary by state.

Full-Year Contribution

Employees can open an HSA in any month and still have the ability to make the maximum annual contribution to the account, regardless of the effective date. Restrictions apply. Consult your financial advisor.

Portability

Funds roll over at the end of each year and belong to the employee, even when changing employers or switching to a different high-deductible health plan.

Choice

Employees select how their HSA funds are spent and invested. Funds can also be accumulated to enhance a retirement portfolio.

For more information about HSAs, refer to the separate brochure, *Get the Most Out of Your Health Plan. HDHPs and HSAs: A Powerful Combination*. For investment, tax or legal advice, consult a licensed professional.
